Demoralization of Public Amusements. From the Round Table.

There is much in the present shape and obvious tendency of public amusements in this city to justify alarm respecting the state of a social system which cannot only tolerate such representations, but generally patronize them. It is plain that the public must best like that which is most successful, and which keeps, consequently, the longest possession on the boards. There is no possible escape from this conclusion. We are forced, therefore, to believe that the most prurient displays of semi-nucle human figures, interwoven with spoken trash which, in a literary point of view, is no whit better than the penny bulleds hawked on the Park railings, constitute the class of parformances which the people of New York are more annious to see, and which they propose to encourage into permanent estabpose to encourage into permanent estab-

Society, in this large and expanding metropolis, is rouning in a swolten and surbid stream; which becomes every day more foultand solsomer, and which threatens to corrupt swary body and every thing within its atmosphere. It is alto extens the water of our theatres now sightly faraish the stages of our theatres and stages and have a large indusence in public affairs. Dr. Mary E. There is no parallel in European cities which other justiles or uphole such exhibitions. What they have in Europe is the way of ballet, whatever clear it may be, is occasionally poetle, artistle—a performance where grosmees is carried off by grace, and in which a symmetrical purpose parity disguises, if it does not vell, alluring display. Here we havethe gingerbrand without the gilding. The performance is simply nasty, without any poetry at all. I appeals without disguise to the lowest passions of ituman nature; and the sole canulation among the purveyors of these innovities is as to who shall formish the grossest specials which the law can be expected to wisk at and allow.

Since it seems to be conceded on all sides by proceded minute that theatres are investable in an intropolite, and thus the source left to the influential and thoughtly portion of the community is obviously that of encouraging the houses managed by Mr. Stowart, Mr. Wallack and some others are, so far as we know, unversified with these general effect to individual display in the other cannot report the community is obviously that of encouraging the houses managed by Mr. Stowart, Mr. Wallack and some others are, so far as we know, unversified with these general effect to individual display in the other cannot be concealed on the source of the community is obviously that of encouraging the houses managed by Mr. Stowart, Mr. Wallack and some others are, so far as we know, unversified with these general effect to individual display in the other cannot be concealed as creditation of lewel thoughts and the oble cannot dispusating images. The House answered of the people soncerned. The House answered to Executive, however, very promptly by a vote of one hundred and fourteen for the bill to twonty-five spainat it, and the Senate responded to the question, "Shall the bill become a law notwithstanding the President's objections?" by a vote offerty yeas to seven may; and as it is now a law of the land, it must as such be aboved and enjoyeed. beyed and enforced.

All that need be said in reply to Mr. Johnson's constitutional objectious is, that while the authority in this business thereby belongs to Congress he has binnerf, in the course of the last two years, exercised all these powers, and more, too, and without any authority whatever. Mr. Johnson, in fact, as he has been described, is coly halt a Bourbon the levest noticing, but he forgets many things. If he would remember more he would say leas about the exercise of described in meers. lespotie powers.

TITUSVILLE, PA., THURSDAY, MARCH 28, 1867. Woman's Rights in England

London Correspondence of the New York Times.

The woman's rights question is carried on more quietly in England than in America, and therefore, perhaps, more affectually. In the new class list of those who have passed examinations for the University of Cambridge are: Junior lor tops, 1,126; junior girls, 118; sestor boys, 1,122; senior girls, 34. How many junior and senior girls have entered at Harvard or Yafe 7; so observe also that 25 female candidates for nuclical degrees have just entered the Medical College of London. The women here do not give a so many lectures or make so many speeches on woman's rights, but they go to work and take it them. Four-aften of the work of the post-offices and tegraphs is done by the women. They keep a large proportion of the bear and liquore. In the fact, English women are as a rule, sturdy enough to take their own part, and do pretty much as they like and would soon have votes and seats in Parliament if they cared for them. As it is they write their share of the books, newspapers and periodicals and have a large influence and public affairs. Dr. Mary E. Walker has given a public affairs. Dr. Mary E. Walker has given a public affairs. Dr. Mary E. Walker has given a public affairs. Dr. Mary E. Walker has given a temperance lecture in the Fetter-lams Chapet, the one, if believe, where flyedenbory used to go to hear the Moravians, and as the medical students kept away, she got only applause and thanks and a bouget. Butanother Mary Walker is likely to fare worse than our fair medica at few years ago to don male attire, and engaged as a barman. Somehow the breeches seem to have

The Legislative Committee charged with the investigation of the affirs of the Pueffe Steamship Commy, held a meeting and heard testimony on the subject yesterday. The President and one or two Discretors of the company and several other stockholders testified, among them Mr. Leonard W. Jerome, who sated that he lost \$250,000 in different stocks lest February. The President stated that the Lompany was worth \$37,000,000.

President stated that the tempany was worm asyncopolog.

The Herald's Montgomery (Ala) special says a reconstruction meeting of both colors was beld there on Monday night. Divining the Courts.-Our Meadville neigh bors have been painfully exercised over a man of atraw. They appointed a committee severa weeks neo to right Harrisburg for the nurpose of opposing any legislation providing for the creetion of a separate judicial district in Eastern Crawford. No such bilt had at that time been introduced or even contemplated. But the precautionary action of the Meadville Ear actually rangested the measure, and a bill of that purport valves and pumps now in extensive use in the oil region, and from the bost and most reliable information collected from producers throughable, for the legislative act creating the county of Crawford contains the following prevision

THE GOOD TIME COMING. -The oil trade circular of Messrs. Strange, Brothers & Co., of

London, contains the following :

"The manufacturers are anxiously waiting to hear the result of the several experiments now being made in many parts of England and the Continent, for the use of coal oil for steam fuel. From information we have received, we are glad to hear there is every chance of a decided success. When this invention is perfected, the consump-When this invention is perfected, the consump-tion will be so great that we may have the prices of oil advancing as rapidly as they declined."

The experiments that have already taken place in this country have placed it beyond doubt that respect must certainly be very valuable. Crocus' Mistory of Pithole. Mr. Charles C. Leonard, of Pithole, whose immercus letters moder the nom de plume of

"Crocks" acquired so deserved a popularity last ason, has recently issued a little the above title. It is a serio comic performance, embodving "facts, fancies and figures" in about equat parts, which are presented in very attract-ive style. " Had the book been worked up (says Grocus), as have the writer's feelings and foot oles, while scarching for statistics, it might have presented more attractions and less truth." We that any appliegies are required. He has made a very flattering presentment of what in these latter days is generally regarded as an exceedingly "dry " subject. Fithole City is supposed to be one of the innal scaport towns ciptured by "Sampson," on
his celebrated "march to the sea," where soon
after, with his army, composed of a sufer and
the jaw-bone of an a-rmy mule, he turned the
flank of 3,000 Fallistines, demoralizing them to
such an extent that they were only fit for buzzard hash after the battle. Eminent commentators agree in the supposition that this was the
last waturing place at which J. Wilkes Booth,
Wirz, Herad and Judas stopped previous to
their departure from this country, that they
unight find their final longings more comfortable
by comparison.

Qualification of Teachers in the Common Schools.

Prof. Wickershim's proposition to demand a higher grade of qualification for tractices to our common schools, is proven to have been seriousy needed by the manner in which the reform is apported by the press of the State. The bill in which this and other refurms to be applied to the common schools jucorporated, has passed the House, and been favorably reported by the Senate Committee on Education There are 750,000 children in the State entitled to the benefits of the common school law, and the justrue ion of so many minds is a subject which may well engage the profoundest deliberation of the wiscet statesmen. Prof. Wickersham, as the bend of the common schools of the State, is devoting himself entirely to their improvement and effipasses and becomes a law, as we have every res on to believe it will. Our readers have doubtless noticed the facthat the bill authorizing an lucrease of the capi tal of the Pennsylvania Railroad Company, recently passed by the Legislature, and return ed to it by Governor Geary with a veto. This is the Governor's first veto, if we except one relat ing to a bill of minor importance, which was returned early in the session on the ground that the subject legislated upon was within the power of the courts. In the House there was no attempt to override the Governor's veto. Au co that hody and unanimously concurred in by the Senate.
